TurningPoint Cloud Quick Start Guide

081815

Setting Up TurningPoint Cloud Software

Downloading TurningPoint Cloud

The TurningPoint Cloud software is accessible through the Turning Account website.

1. Go to account.turningtechnologies.com to create an account. For information on creating an account, see help.turningtechnologies.com/TurningAccount.
2. After your account has been created, sign in with your *Username* and *Password*.
3. Select **Downloads** from the left menu.
4. Select the appropriate version of TurningPoint Cloud.
5. **Save** the file to a specified location.

Installing TurningPoint Cloud (EXE File)

The Extraction Wizard will install the software onto your computer if the "install" version of TurningPoint Cloud was selected from the Turning Account website.

1. Double-click the **downloaded setup** file.
2. Click **Next**. The license agreement window opens. Read the *End User License Agreement (EULA)* or click the **Print** button to print.
3. Select the button labeled **I accept the terms in the license agreement** to accept.
4. Click **Next**.
5. Verify the install location. Optionally, select the box labeled **Open PowerPoint Polling add-in every time PowerPoint is launched**. If selected, the TurningPoint Cloud add-in will open with PowerPoint each time PowerPoint is opened independent of TurningPoint Cloud.
6. Click **Next**.
7. Click **Install**. The computer installs TurningPoint Cloud and displays the **Finish** button on the page when the process is complete.
8. Click **Finish**. Select the **Launch TurningPoint Cloud** checkbox to immediately open the application, or double-click the shortcut on the desktop to open the application.

Opening TurningPoint Cloud (Zipped File)

The zipped file must be extracted before TurningPoint Cloud can be opened.

1. Double-click the **downloaded ZIP** file.
2. Select the desired folder location and click **Unzip**.
3. Open the unzipped folder and double-click **TurningPoint Cloud.exe**.

TIP: Create a shortcut for TurningPoint Cloud on the desktop for quicker access. **DO NOT** remove any files from the Application folder. Application will not function properly if files are removed.

Opening TurningPoint Cloud Mac

TurningPoint Cloud software is downloaded as a DMG file.

1. Double-click the DMG file.
2. Drag and drop the TurningPoint Cloud icon to the **Applications** folder.

NOTE: It is recommended to create an alias and add it to the Dock.

3. Double-click **TurningPoint Cloud**.

Setting Up an Offline Password

To use TurningPoint Cloud when you are not connected to the internet, you must set up an offline password.

NOTE: Setting up an offline password is not available to Single Sign-On users.

IMPORTANT

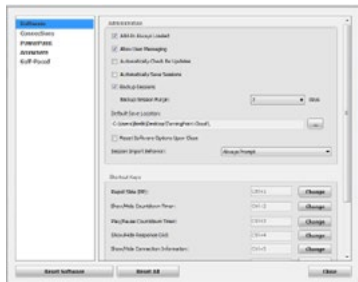

When you are signed in to TurningPoint Cloud offline, online features (ResponseWare and Integrations) will not be available.

PREREQUISITES

You must be connected to the internet to set up your offline password.

1. Open TurningPoint Cloud and sign in to your Turning Account.
2. Click  on the bottom right corner of the Dashboard.

The *Preferences* window opens.

Optionally, the *Preferences* window can be accessed through any of the polling environments.

- To open *Preferences* in the PowerPoint polling environment, click  on the TurningPoint Cloud ribbon.
- To open *Preferences* in the Anywhere polling environment, click  and select *Preferences*.
- To open *Preferences* in the Self-Paced polling environment, click *Tools* on the menu bar and select *Preferences*.

3. Click *Set Password*.

4. Enter and confirm your offline password in the boxes provided.

NOTE: Your password must contain a minimum of eight characters including one upper case, one lower case and one number.

5. Click *Set*.

6. Click *Close* to return to the TurningPoint Cloud Dashboard.

TurningPoint Cloud Dashboard

The screenshot shows the TurningPoint Cloud Dashboard interface. At the top, there are three main tabs: **POLLING**, **CONTENT**, and **MANAGE**. The **POLLING** tab is active. On the left side, there is a sidebar with two sections: **Participants** and **Content**. The **Participants** section shows a list of groups: "Auto", "Group 101", and "Group 614". The **Content** section shows a list of items: "None", "BIO-101-2", "Military_Questions_Library", and "TT-CDP-Carcinogens".

At the top of the dashboard, there are several status indicators: "Turning Instructor", "100 Seats", and "Feedback". Below these, there are three main sections for choosing a polling environment: **PowerPoint® Polling** (orange), **Anywhere Polling** (green), and **Self-Paced Polling** (blue). Each section has a circular icon and a brief description of its functionality.

Annotations with green arrows point to various parts of the dashboard:

- Launch Polling**: Points to the "POLLING" tab.
- Create Content**: Points to the "CONTENT" tab.
- Manage Participant List and Polling Data**: Points to the "MANAGE" tab.
- Turning Account Username**: Points to the "Turning Instructor" status indicator.
- Seat License Count**: Points to the "100 Seats" status indicator.
- Provide User Feedback**: Points to the "Feedback" status indicator.
- Select Participant List**: Points to the "Participants" sidebar section.
- Select Content**: Points to the "Content" sidebar section.
- Choose Polling Environment**: A double-headed arrow points to the three main polling sections.
- Help & Tutorials**: Points to the bottom-left icon.
- About TurningPoint Cloud**: Points to the "TurningPoint cloud" logo at the bottom center.
- Preferences**: Points to the bottom-right icon.

The TurningPoint Cloud Dashboard offers one, simple user interface for polling in PowerPoint®, polling in any application and self-paced polling. The Dashboard provides instant management of polling, participants, content, sessions and reports. In order to access the Dashboard, you must sign in to your Turning Account first. Create a Turning Account at <https://account.turningtechnologies.com>.

Receiver Connection Setup

How to Change the Channel on the Receiver

1. Plug in the receiver and open TurningPoint Cloud.
2. Click the channel number below Receiver. The Preferences window opens.
3. Select the channel number from the drop-down menu under ResponseCard Channels. Once the receiver has been set up, it is now possible to begin testing the polling connections. To test the polling connections, the devices (ResponseCards) need to be set to the same channel as the receiver.

RF+ Receiver

RF Receiver

Setting Up a Receiver

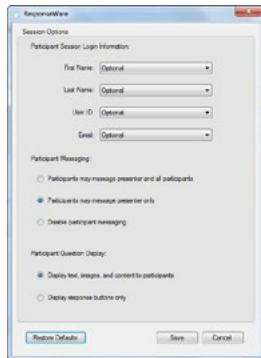

When the receiver is plugged in, it is automatically recognized by the computer. The default channel on the RF receiver is set to 41. IR receivers do not work on channels and require no adjustments. The devices (ResponseCards) need to be set to the same channel as the receiver when polling.

IR Receiver

Connect to ResponseWare

ResponseWare must be enabled for participants to use ResponseWare as a response device. The virtual response solution allows participants to respond through web-enabled devices and applications available for smartphones and tablets. If you do not use ResponseWare, skip this task.

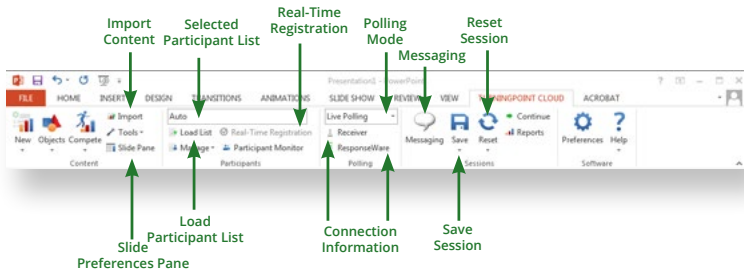

How to Set Up ResponseWare

1. Click **Click to Connect** in the upper right corner of the TurningPoint Cloud Dashboard.
2. Optionally, click **Session Options** to configure participant settings. Adjust the session options as necessary and click **Save**.
 - Require Participant Accounts** - Place a check in the box next to this option to require participants to have licensed accounts to be able to respond. This option is only available if you have a Concurrent License applied to your TurningPoint Account.
 - Participant Session Login Information** - First Name, Last Name, User ID and Email can be set to *Optional*, *Require* or *Don't Show*.
 - If set to **Require**, participants will be prompted to enter the required fields prior to joining the session.
 - If set to **Optional**, participants will be prompted to enter the optional fields but can join the session without entering the information.
 - If set to **Don't Show**, participants will not be prompted to enter the optional fields and the fields will not appear in TurningPoint Cloud reports.
 - Participant Messaging** - Presenters can configure the messaging feature so that participants can message the presenter and all other participants, the presenter only or disable messaging.
 - **Participants may message presenter and all participants** - A participant can choose to message the presenter alone or the presenter and all participants in the session.
 - **Participants may message the presenter only** - A participant can send direct messages to the presenter.
 - **Disable participant messaging** - Participant messaging is disabled, however presenters retain the ability to message the group or individual participants.
3. Click **Start Session**.
4. Click **Close** to return the TurningPoint Cloud Dashboard.
5. Select either **PowerPoint Polling** or **Anywhere Polling** from the TurningPoint Cloud Dashboard.

PowerPoint Polling

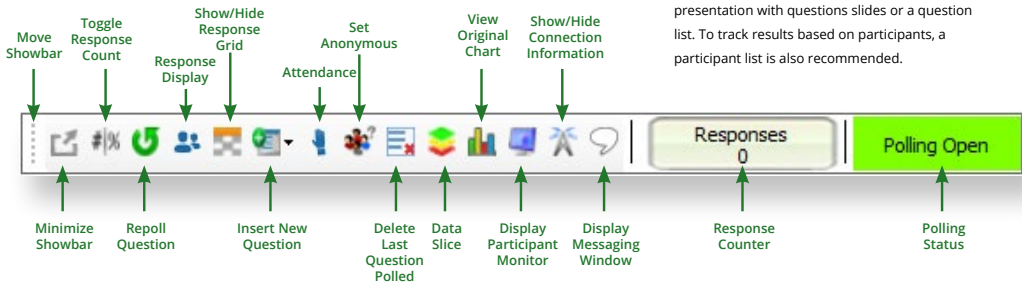

The polling function in PowerPoint allows you to poll an audience with questions embedded directly into your PowerPoint presentation. A ribbon/toolbar is directly integrated into PowerPoint.

PowerPoint Polling PC

Polling in PowerPoint: PC Showbar

Before You Begin

To poll in PowerPoint, you need a presentation with questions slides or a question list. To track results based on participants, a participant list is also recommended.

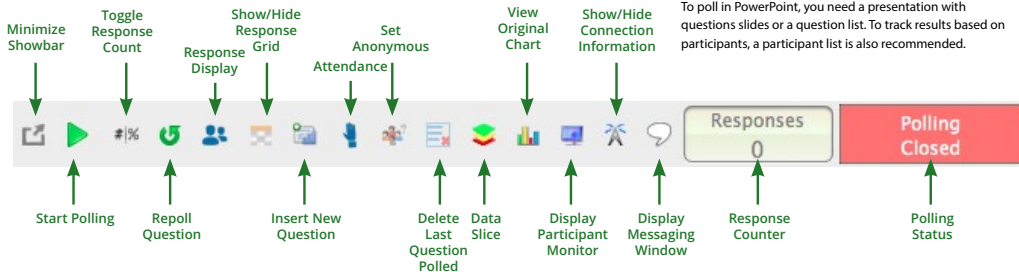

How to Poll in PowerPoint for PC

1. Open TurningPoint Cloud and sign in with your Turning Account. Select a participant list and content, if applicable.
2. Plug in the receiver or establish a ResponseWare session.
3. Click PowerPoint Polling. The *TurningPoint Cloud Dashboard* window closes and PowerPoint opens. If a question list was selected, TurningPoint Cloud will automatically parse the content into slides. If there are a large number of questions in the question list, this may take a few moments.
4. Open the PowerPoint presentation that contains the question slides if content was not selected before PowerPoint was opened.
5. Verify the correct participant list has been loaded and **Live Polling** is selected in the Polling drop-down box from the TurningPoint Cloud ribbon.
6. Start the Slide Show.
7. Depending on the Polling Options that were selected during slide creation, when you come to a polling slide you may need to advance the slide to open polling.
8. Continue until the Slide Show is finished.
9. Close the presentation when you have finished polling.
10. Click **Yes** to save the session. **TIP:** To save session before closing the application, click **Save** on the TurningPoint Cloud ribbon, name session and click **Save**.
11. TurningPoint Cloud opens to the Manage tab to view reports.

PowerPoint Polling Mac

Polling in PowerPoint: Mac Showbar

Before You Begin

To poll in PowerPoint, you need a presentation with questions slides or a question list. To track results based on participants, a participant list is also recommended.

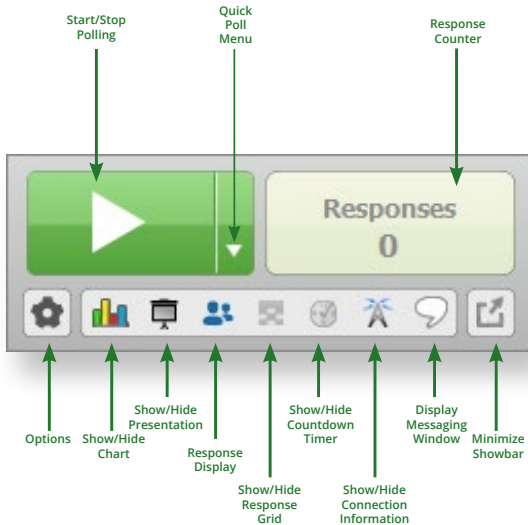

How to Poll in PowerPoint for Mac

1. Open TurningPoint Cloud and sign in with your Turning Account. Select a participant list and content, if applicable.
2. Plug in the receiver or establish a ResponseWare session.
3. Click PowerPoint Polling. The *TurningPoint Cloud Dashboard* window closes and PowerPoint opens. If a question list was selected, TurningPoint Cloud will automatically parse the content into slides. If there are a large number of questions in the question list, this may take a few moments.
4. Open the PowerPoint presentation that contains the question slides if content was not selected before PowerPoint was opened.
5. Verify the correct participant list is loaded.
6. Start the Slide Show from the TurningPoint Cloud toolbar. Starting the Slide Show from the PowerPoint toolbar will result in the Slide Show running as non-interactive.
7. Click Start to open polling.
8. Click Stop to close polling.
 - a) Press the spacebar, enter/return key or down arrow to advance the slide. If using a mouse, a mouse click also advances the slide. Alternatively, a PresenterCard may be used to advance slides and control polling.
9. Continue until the Slide Show is finished.

Anywhere Polling

The Anywhere Polling option opens a floating showbar that allows you to poll on top of any application.

How to Poll with Any Application

1. Open TurningPoint Cloud and sign in with your Turning Account. Select a **participant list** and **content**, if applicable.
2. Plug in the receiver or establish a ResponseWare session.
3. Click **Anywhere Polling**. The *TurningPoint Cloud Dashboard* window closes and the polling application opens.
4. Click the **Start Polling** button. Participants may now respond.
5. Click the **Stop Polling** button. Polling is closed and the chart is displayed.
6. Close the application when you have finished polling.
7. Click **Yes** to save the session. **TIP:** To save the session before closing the application, click the **Options** button, mouse over **Session** and select **Save Session**.
8. Name the session and click **Save**.
9. TurningPoint Cloud opens to the **Manage** tab to view reports.

Self-Paced Polling

The Self-Paced Polling application allows participants to take a paper-based test on a ResponseCard NXT or QT Device.

The screenshot shows the TurningPoint application window. At the top, there are menu items: Session, Tools, and Help. Below the menu are icons for 'Accept Logins', 'Live Results', a timer showing '00:45:00', 'Add/Remove Time' (+/- buttons), 'Messaging', and 'Help'. The main area is divided into two panes. The left pane is titled 'Question List: Example Question List' and shows 'Questions: 30' and a 'Description' box containing the text: 'This question list is to test the knowledge of the enrolled participants on course content.' The right pane is titled 'Channel 22' and shows a table for 'Group 614' with columns for Device ID, First Name, Last Name, User ID, and Status. Below the table, it shows 'Logged In: 0' and 'Completed Tests: 0'. Green arrows point from text labels to these various elements in the interface.

of Participants Logged In

of Completed Tests

How to Poll with Self-Paced Polling

1. Open TurningPoint Cloud and sign in with your Turning Account. Select a participant list and question list.
2. Plug in the receiver.
3. Click **Self-Paced Polling**. The *TurningPoint Cloud Dashboard* window closes and the polling application opens.
4. Click **Accept Logins** and set login options as desired.
5. Click **OK**. At this time the participants may login to the test.
6. Click **Start Polling**. Participants may now begin the test. Once they have finished the test they can submit their results from the response device.
7. Click **Stop Polling** once all the results have been received.
8. Close the application to return to the TurningPoint Cloud Dashboard.
9. Click **Save** to save the session results.
10. Name the session and click **Save**.
11. TurningPoint Cloud opens to the Manage tab to view reports.

Creating Content

For Anywhere Polling and Self-Paced Polling, content is created through question lists. PowerPoint Polling can utilize the question lists, but question slides can also be made directly through the TurningPoint Cloud ribbon embedded in PowerPoint.

Creating a New Question List

A question list is a file that contains questions and answers. The question list can be used for PowerPoint Polling, Anywhere Polling and Self-Paced Polling. When creating the question list, the preferences can be saved and used as a template for other question lists.

How to Create a New Question List

1. Select the Content tab.
2. Click the *Content* drop-down menu, mouse over *New* and select *Question List*.
3. Enter a name and a brief description for the question list.
4. Click the *arrow* next to *Preferences* to expand the window and adjust the options as necessary in the *Content* and *Polling* sections.

TIP: Save the preferences as a preset for other question lists. Click *Save as Preset*, provide a name, click *Add* and then *Save*. The next time a question list is created, select the name from the *Use Preset* drop-down menu.

5. Click *Save*. Now that a new question list has been created, the content, such as question text, answer text and correct answers, may be entered.

The screenshot displays the 'TurningPoint Cloud' software interface for creating a question list. The main window is titled 'Example Question List' and contains a table with columns for 'Question', 'Version', and 'Post'. The table lists 12 questions, each with a 'Multiple Choice' type and a '1 Choice' answer. The right sidebar contains settings for 'Question Options', 'Polling Options', and 'Scoring Options'. Green arrows point to various UI elements with labels: 'Add, Remove, Import Questions' points to the question list table; 'Manage Version' points to the 'Version' column; 'Question Type' points to the dropdown menu; 'Question Properties' points to the 'Post' column; 'Set Correct Answers' points to the 'C' dropdown; 'Add/Edit Question Text' points to the question text field; 'Question Preferences' points to the right sidebar; and 'Apply Standards' points to the 'Standards' button at the bottom.

Creating Content in PowerPoint

Content is created directly from the ribbon/toolbar.

Mac PowerPoint Toolbar

Preferences Help

Creating Content in PowerPoint

Before You Begin

Open PowerPoint through TurningPoint Cloud. Select the Polling tab and click PowerPoint Polling.

PC PowerPoint Ribbon

Mac PowerPoint Toolbar

How to Create Content in PowerPoint

1. Select the TurningPoint Cloud ribbon or toolbar.
2. Click **New** and select the **question type**.
TIP: On PC, you can specify a default chart type in the Preferences. The TurningPoint Cloud PowerPoint Preferences are accessed through the Preferences button on the TurningPoint Cloud ribbon. You can also insert a new chart onto a slide using the **Objects** button on the ribbon.
3. Enter the **question text** and **answer text**. On Mac, click the Refresh button to update your chart to reflect your slide changes.
4. Optionally, set the **Question Options** in the *Slide Preferences* pane. On Mac, verify the slide number on the *Slide Preferences* pane before making option adjustments.
5. Optionally, set the **Scoring Options**, such as point values or speed scoring in the *Slide Preferences* pane.
6. Optionally, adjust the **Polling Options** in the *Slide Preferences* pane.
7. Optionally, click on the chart and adjust the **Chart Options** in the *Slide Preferences* pane. (Only available on PC.)
8. When finished, **save** the PowerPoint presentation.

Managing Data Participant Lists

TurningPoint Cloud sessions are grouped based on the participant list with which they are associated. Participant lists created in TurningPoint Cloud can be used for PowerPoint Polling, Anywhere Polling and Self-Paced Polling.

Downloading a Participant List

Participant information can be imported from a student roster in a Learning Management System (LMS) or from your Turning Account.

NOTE: Importing from an LMS can only be used if the integration has been installed on the LMS server. Please contact your IT Department to confirm that the LMS integration is installed and configured to operate with TurningPoint Cloud.

1. Open TurningPoint Cloud and sign in to your Turning Account.
2. Select the **Manage** tab.
3. Click the **Participant List** drop-down menu and select **New**. The **Create Participant List** window opens.
4. Select the **Download from Integration** radio button and click **Create List**. The **Connect to Integration** window opens.
5. Select the appropriate **Integration** from the **Integration** drop-down menu.
6. Enter the **Server Address**, **Username** and **Password** in the appropriate fields.
7. Click **Connect**. Optionally, click **Remember this information** to have the Integration, Server Address and Username stored for future use.
8. If applicable, select the **Institution** from the **Select an Institution** drop-down menu. The **Import Participant List** window opens.
9. Select the **course** or **courses** to import. Optionally, select the **Select All** checkbox to import all courses.
10. Click **Import**. A confirmation box is displayed.
11. Click **OK**. The participant list is added to the left panel of the **Participant List Overview** screen.
12. Select the **participant list** to view the participant information.

NOTE: The imported participant list contains the following information: Device ID(s), License Status, First Name, Last Name, User ID and Email.

Creating a Participant List

Creating a participant list from your Turning Account allows participants to register for a course. After the participant list is created, an e-mail invite is sent to participants requesting them to register for the course associated to the participant list.

1. Go to <https://account.turningtechnologies.com> and sign in to your Turning Account.
2. Click the **Participant Lists** tab.
3. Click **Add**.
4. Enter the participant list **name** and **ID**.

TIP: It is highly recommended to name the participant list after the course (see below). Participants can search for the course by course name, course ID, instructor name or EXACT instructor email.

5. Click **Save**. The participant list is successfully saved and added to the Participant Lists menu.
6. Select the participant list and click the **Manage** icon. The participant list opens.
7. Click **Add**.
8. Enter a participant's email address in the appropriate field and click **Enter**. To add multiple participants, separate email addresses with a comma. Valid email addresses will be marked green while invalid email addresses will be marked red.

TIP: You can copy and paste email addresses into the **Invite Participants** window. However, email addresses MUST be separated with a comma.

9. Click **Send** to invite participants.

NOTE: Click the **Manage** icon and select **Accepted** or **Invited** to track which participants have or have not registered for the course.

ResponseCard RF and ResponseCard RF LCD Channel Setting (Optional)

Changing the Channel

1. Press and release the  button.
2. While the light is flashing red and green, enter 2 digit code.
(i.e. channel 1=01, channel 21=21).
3. After the second digit is entered, press and release the  button.

LED Color Description

Red - Response was not received

Green - Response was received

Yellow (Multiple Flash) - Sending

Yellow (Single Flash) - Polling not open

ResponseCards are set to Channel #41 by default.

PresenterCard

Quick Start Guide

*To configure PresenterCard programmable buttons, go to the polling software's Preferences. Full user guide is available at TurningTechnologies.com/Support

Button Action

Start/Stop Button: Open and close polling.

Back Button: Go backward through a presentation slide deck.

Forward Button: Advance through a presentation slide deck.

Programmable Button* 1: (Default) Show/Hide Chart Window (Anywhere only).

Programmable Button* 2: (Default) Show/Play/Pause Countdown Timer.

Programmable Button* 3: (Default) Show/Hide Response Grid.

Show/Hide Button: Show/Hide Presentation.

Places PresenterCard in Channel Programming mode.

Changing PresenterCard Channel

1. Press the  button.
2. Press the  or  button to increase or decrease channel numbers.
3. Once the desired channel is shown on the display, press the  button to set the channel.

Pairing PresenterCard

1. Plug in the receiver and open TurningPoint.
2. Click the **channel number** below Receiver.
3. Verify that the PresenterCard is programmed to the same channel as the receiver.
4. Scroll to the **PresenterCard** section and click **Change** next to PresenterCard Device ID.
5. Press any button on the PresenterCard. The device ID of the PresenterCard is displayed next to Detected Device ID.
6. Click **Save**.
7. Click **Close** to close the preferences window.
